Research papers

Cognitive Decline Associated with Normal Aging in Rats: A Neuropsychological Approach ........................................................ 1
David R. Zyzak, Tim Otto, Howard Eichenbaum, and Michela Gallagher

A Role for a Chicken Homolog of the Neural Cell Adhesion Molecule L1 in Consolidation of Memory for a Passive Avoidance Task in the Chick ......................................................... 17
Andrew B. Scholey, Radmila Mileusnic, Melitta Schachner, and Steven P.R. Rose

Overexpression of a Calcium-binding Protein, S100β, in Astrocytes Alters Synaptic Plasticity and Impairs Spatial Learning in Transgenic Mice ................................................................. 26
Robert Gerlai, J. Martin Wojtowicz, Alexander Marks, John Roder

Environmental Enrichment and Postnatal Handling Prevent Spatial Learning Deficits in Aged Hypoemotional (Roman High-avoidance) and Hyperemotional (Roman Low-avoidance) Rats .................................................................. 40
Rosa Maria Escorihuela, Adolf Tobeña, and Albert Fernández-Teruel

Cover  L1 and memory. Effects of injections of Ig I–VI and FN 1–5 fragments at −30 min and +5.5 hr on retention of memory for passive avoidance task. (For details, see Scholey et al., p. 17.)
